Create Synapse workspace

BasicsSecurityNetworkingTagsReview + create

Create a Synapse workspace to develop an enterprise analytics solution in just a few clicks.

Project details

Select the subscription to manage deployed resources and costs. Use resource groups like folders to organize and manage all of your resources.

Subscription * Azure for Students

Resource group * (New) RG2-lms

Managed resource group managed-rg-synapse-lms

Workspace details

Name your workspace, select a location, and choose a primary Data Lake Storage Gen2 file system to serve as the default location for logs and job output.

Workspace name * practical2synapse

Region * (Asia Pacific) Central India

Select Data Lake Storage Gen2 * From subscription Manually via URL

Account name * (New) datalake1ms2

File system name * (New) data

☒ Assign myself the Storage Blob Data Contributor role on the Data Lake Storage Gen2 account to interactively query it in the workspace.

We will automatically grant the workspace identity data access to the specified Data Lake Storage Gen2 account, using the [Storage Blob Data Contributor](#) role. To enable other users to use this storage account after you [create the workspace](#), [read from the role](#).

Terms

By clicking Create, I (a) agree to the legal terms and privacy statement(s) associated with the Marketplace offering(s) listed above; (b) authorize Microsoft to bill my current payment method for the fees associated with the offering(s), with the same billing frequency as my Azure subscription; and (c) agree that Microsoft may share my contact, usage and transactional information with the provider(s) of the offering(s) for support, billing and other transactional activities. Microsoft does not provide rights for third-party offerings. For additional details see [Azure Marketplace Terms](#). c?

Basics

Subscription Azure for Students

Resource group (new) RG2-lms

Region Central India

Workspace name (new) practical2synapse

Data Lake Storage Gen2 account (new) https://datalake1ms2.dfs.core.windows.net

Data Lake Storage Gen2 file system (new) data

Managed resource group managed-rg-synapse-lms

Role assignments The Storage Blob Data Contributor role will be assigned on the specified Data Lake Storage Gen2 account to both the workspace managed identity and the current user.

Security

Authentication method Use both local and Microsoft Entra ID authentication

SQL Server admin login sqladminuser

SQL Password *****

Double encryption No

Networking

Managed virtual network No

Allow connections from all IP addresses Yes

Created table

The screenshot shows the Microsoft Azure Synapse Analytics interface. On the left, the 'Data' pane shows the workspace 'practicalZsynapse' with linked resources including 'Azure Data Lake Storage Gen2' and 'practicalZsynapse (Primary - data...)'. The main editor displays a SQL script named 'SQL script 1' with the following code:

```
1 CREATE TABLE sales_data
2 (
3     order_id INT,
4     customer_id INT,
5     city VARCHAR(50),
6     amount INT
7 );
```

The 'Results' pane shows 'No results to show' with the message 'Your query yielded no displayable results'. The 'Properties' pane on the right shows the script's name as 'SQL script 1', type as '.sql script', and size as '0 bytes'. The 'Results settings per query' are set to 'First 5000 rows (default)'. A status bar at the bottom indicates '00:00:02 Query executed successfully.'

Copy into table

The screenshot shows the Microsoft Azure Synapse Analytics interface. On the left, the 'Data' pane shows the workspace 'practicalZsynapse' with linked resources including 'Azure Data Lake Storage Gen2' and 'practicalZsynapse (Primary - data...)'. The main editor displays a SQL script named 'SQL script 1' with the following code:

```
1 COPY INTO sales_data
2 FROM 'https://datalakeins2.blob.core.windows.net/data/files/sales_csv.csv'
3 WITH
4 (
5     FILE_TYPE = 'CSV',
6     FIRSTROW = 2
7 );
```

The 'Results' pane shows 'No results to show' with the message 'Your query yielded no displayable results'. The 'Properties' pane on the right shows the script's name as 'SQL script 1', type as '.sql script', and size as '0 bytes'. The 'Results settings per query' are set to 'First 5000 rows (default)'. A status bar at the bottom indicates '00:00:02 Query executed successfully.'

Created view

The screenshot shows the Microsoft Azure Synapse Analytics interface. The left sidebar displays the 'Data' section with 'Workspace' and 'Linked' tabs. The main area shows the 'SQL script 1' editor with the following SQL code:

```
1 CREATE MATERIALIZED VIEW mv_city_order_count
2 WITH
3 (
4     DISTRIBUTION = HASH(city)
5 )
6 AS
7 SELECT
8     city,
9     COUNT(order_id) AS total_orders
10 FROM dbo.sales_data
11 GROUP BY city;
```

The 'Results' tab is selected, showing 'No results to show' with the message 'Your query yielded no displayable results'. The 'Properties' panel on the right shows the script name 'SQL script 1' and type '.sql script'. The status bar at the bottom indicates '00:00:02 Query executed successfully.'

The screenshot shows the Microsoft Azure Synapse Analytics interface. The left sidebar displays the 'Data' section with 'Workspace' and 'Linked' tabs. The main area shows the 'SQL script 1' editor with the following SQL code:

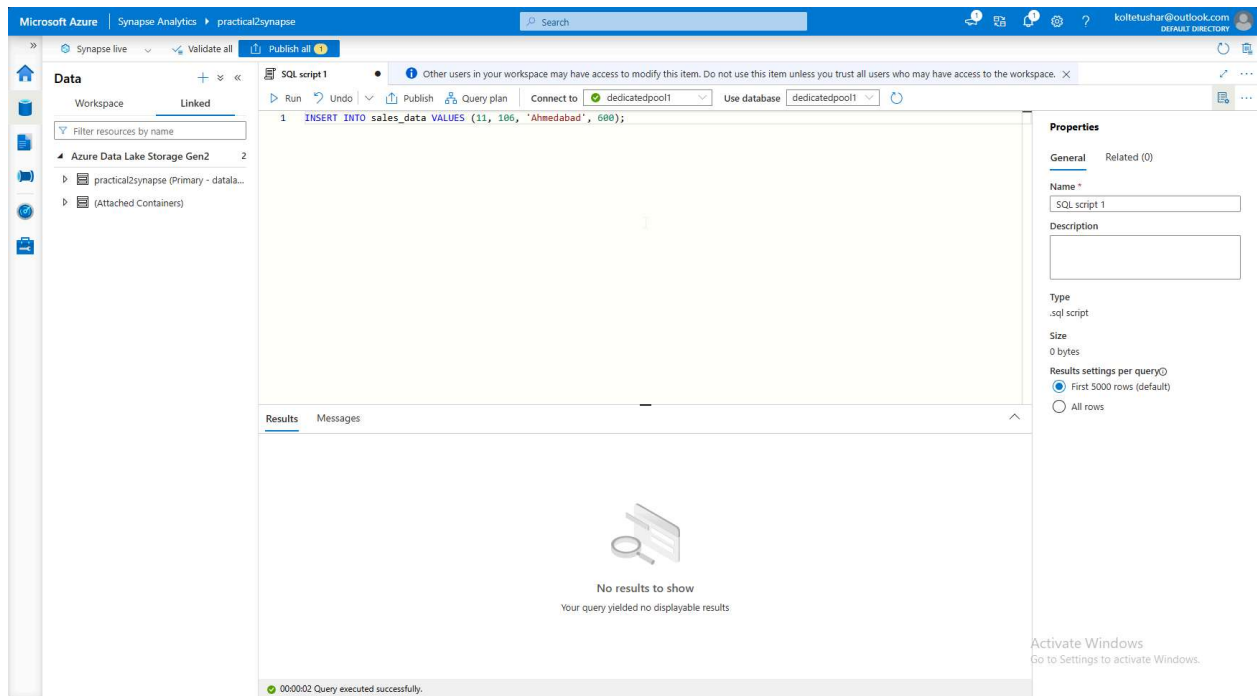

```
1 SELECT * FROM mv_city_order_count;
```

The 'Results' tab is selected, showing a table with the following data:

city	total_orders	cb
Pune	1	1
Mumbai	3	3
Delhi	3	3
Ahmedabad	3	3

The 'Properties' panel on the right shows the script name 'SQL script 1' and type '.sql script'. The status bar at the bottom indicates '00:00:00 Query executed successfully.'

Inserted new row

Microsoft Azure | Synapse Analytics | practical2synapse

SQL script 1

```
1 INSERT INTO sales_data VALUES (11, 106, 'Ahmedabad', 600);
```
