

1. Create a User Account for a new user.

The screenshot shows the Microsoft Azure portal interface. The top navigation bar includes the Microsoft Azure logo, a search bar, and the Copilot icon. The main content area is titled 'Default Directory | Overview'. On the left, there is a sidebar with navigation links: Overview, Preview features, Diagnose and solve problems, Manage, Monitoring, and Troubleshooting + Support. The main area displays the 'Default Directory' overview, including basic information like Name (Default Directory), Tenant ID, Primary domain, and License. A blue arrow points to the 'Create new user' option in the 'Add' dropdown menu. The right sidebar shows a 'Notifications' panel with a bell icon and a message: 'No new notifications from this session'. At the bottom, there is a 'My feed' section with a 'Try Microsoft Entra admin center' card and a user profile card for Tushar Kolte.

2. Reset the new User's Password

The screenshot shows the Microsoft Azure portal interface. On the left, the navigation pane is open, showing the 'demo' user profile. The main area displays the 'Reset password' dialog for the user 'demo'. The dialog has a green success message: 'Password has been reset'. Below this, it says 'Provide this temporary password to the user so they can sign in.' and shows a temporary password: 'Capo1291'. A blue arrow points to the temporary password field. On the right, there is a 'Notifications' panel showing a 'Successfully created user' notification. At the bottom right, there is a 'Activate Windows' watermark.

3. Create a group called developer and assign contributor role to the group

The screenshot shows the Microsoft Azure portal interface. On the left, the navigation pane is open, showing the 'developer' group. The main area displays the 'Add members' dialog for the group 'developer'. The dialog shows a search bar with 'demo' entered, and a list of 92 results found. The 'demo' user is selected. The 'Selected (1)' panel on the right shows the 'demo' user. At the bottom right, there is a 'Activate Windows' watermark.
